Pavel Vít

Product Manager | AI Agents & Workflow Automation | Project Management | B2B SaaS

Prague, Czech Republic · pavel.vit@protonmail.com · +420 732 357 403 · linkedin.com/in/pavel-vit

SUMMARY

Product manager for the AI era with 10 years in SaaS and digital product development. All about getting things done and shipping value instead of bloated processes. Strong delivery background, platform agnostic, systematic and data-driven, with hands-on experience building working prototypes, automations and AI agents. Most at home in small, fast-moving teams.

EXPERIENCE

Product & Project Manager – Trackdesk

Prague · 10/2023 – Present

Product and project management for a B2B affiliate tracking SaaS (3,000+ customers).

- **Product management:** discovery, data-driven prioritization, roadmapping and UX design
- **Prototype-first development:** AI-built working prototypes alongside written specs
- **Project and delivery management:** capacity planning, estimates, sprint and release management
- **AI agents, automations and context engineering:** connecting product, engineering, sales and marketing into one system, with CRM, call, ticket and product data structured as context for AI, yet still readable for humans

Earlier experience

- **Project Manager** – WDF, custom web and mobile software agency · 03/2021 – 08/2023
- **Project Manager** – GoOut, event discovery and ticketing platform · 11/2019 – 02/2021
- **Localization Producer** – Lipa Learning · 09/2017 – 08/2019

SKILLS

- **Product:** Product Management, Product Discovery, Roadmapping, Prioritization, Requirements & Specs, UX Design, Prototyping
- **AI & automation:** AI Transformation, AI Agents, Agent Orchestration, Workflow Automation, Process Optimization, Context Engineering, AI-Assisted Development, No-code / Low-code, LLMs, MCP
- **Delivery:** Project Management, Agile, Scrum, Backlog Management, Sprint & Release Management, Capacity Planning, Stakeholder Management
- **Tools:** Claude, Lovable, Supabase, Zapier, ClickUp, Airtable, Softr, Figma, GitLab, Jira, HubSpot
